Medications Prescribed - Tested

Amphetamine

Medications Prescribed- Not Tested

Aspirin

The prescription information reported here and on the requisition form has been provided by the requesting clinician and has not been verified. This report is not intended to replace the patient's official medical record as evidence of the drugs the clinician has prescribed. Data for anticipated positive(s) and detection windows are extracted from recognized published pharmaceutical and pharmacokinetic data. Several factors may affect the metabolism and excretion of a drug. The information provided here should be combined with clinical observation and professional judgment

SPECIMEN VALIDITY TESTING

Tests	Results	Expected Range	Comments
Creatinine	20	>20	Normal
